On behalf of the USMMA and the alumni relations department I wanted to express our sincere thanks to everyone at Coliseum Caterers for helping to make our alumni weekend a huge success for the 2nd straight year. (Over 1000 people served). Over the course of my career at the academy I have worked with various caterers and none compare with the level of professionalism that Coliseum Caterers consistently delivers.

Each alumni class that worked with your catering staff had rave reviews about your service. Your catering planners are very knowledgeable and put you at ease with their offering of suggestions for a menu that fits the particular event. The food and its presentation are deserving of restaurant quality. And of course your courteous delivery personnel, who set up the food, always go above and beyond what you would expect.

Many of us have referred your service to friends and family only to get the same feedback whether it was for a small backyard BBQ, an afternoon ladies luncheon, a corporate breakfast seminar or a wedding on the beach.

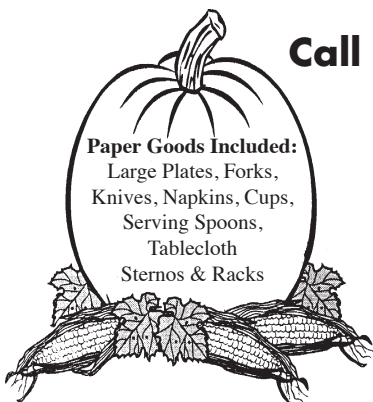

Hands on Owners - Managers that have an eye for detail - and Employees who really care let you to believe that your event is the only one. You truly live up to your motto "Customer Service is our Passion. Presentation is our Art. Good Food is our Profession".

We look forward to planning our next catering needs with you.

Sincerely,

Lisa Donnitz - Alumni Administrator  
US Merchant Marine Academy
